2.4 Organizational Chart

2.5 Details of Services/Initiatives Provided by STPI

2.5.1 SOFTWARE TECHNOLOGY PARK (STP) SCHEME/ELECTRONIC HARDWARE TECHNOLOGY PARK (EHTP) SCHEME

Software Technology Park (STP) is a 100% export-oriented scheme for the development and export of computer software using communication links or physical media and including export of professional services. The scheme integrates the concept of 100% Export Oriented Units (EOUs) and Exports Processing Zone (EPZs) of the Government of India and the concept of Science Parks/ Technology Parks as operating elsewhere in the world.

HIGHLIGHTS OF STP SCHEME

- Approvals are given under single window clearance mechanism
- Up to 100% foreign equity permitted
- Goods imported/ procured domestically by the STP units are completely duty free.
- Second hand capital goods may also be imported.
- Sales in the Domestic market are permissible up to 50% of the export.
- Income tax benefit under sections 10A of Income Tax Act up to 31st March 2011.

2.5.2 HIGH SPEED DATA COMMUNICATION FACILITY (HSDC)

STPI has designed and developed state-of-the-art HSDC Network called SoftNET, which is available to software exporters at internationally competitive prices. STPI has set up its own International Gateway at 58 locations for providing HSDC links to the software industry.

Local access to international gateways at STPI centres is provided through Point-to-Point and Point-to-Multi-point microwave radios for the local loop which has overcome the last mile problem and enabled STPI to maintain an up time of nearly 99.9%. The terrestrial cables (fibre/ copper) are also used wherever feasible. These communication facilities are the backbone of the success in the development of offshore software activities.

STPI provides the following HSDC services through this network

- 1 Internet Services.
2. Web/ Home page-hosting, authoring and maintenance.
3. Other value-added services.

STPI provides world-wide connectivity for its software export units and is radiating about more than 400 MBPS and is operating with international carriers from its stations/ available fiber connectivity for various destinations.

2.5.3 INCUBATION

The incubator concept has emerged world-wide as an essential component of the infrastructure required for the growth of high technology businesses including Information Technology and Software Development. These incubators provide the necessary help to nurture technology ideas into commercial successes.

STPI has launched the concept of incubation facility in many of its centres for the small and Medium Entrepreneurs (SMEs) STPI sets up entire facility for commencing operations by software units from day one. It offers advantage of no gestation period and does not require any capital investment. It helps in developing confidence in the client and ensures that the business opportunity is not lost.

The incubation facilities have the following facilities:

- Modular Built-up area for ready to use by the Software Entrepreneurs
- Back up for supply
- Telephones and Fax Facility
- Air Condition
- Business Centre
- Conference Rooms and Training Facilities
- High Speed Communication Links, Internet and Video Conferencing Facilities.

STPI has established a Technology Incubation Centre at Noida and have the greatest advantage for this kind of central facility.

2.5.4 PROJECT MANAGEMENT AND CONSULTANCY SERVICES

STPI do undertake turnkey assignments in IT and telecom areas. Consultancy services have high margins with no/ minimal capital expenditure. The critical requirement for consultancy and project management services is the availability of skilled and experienced manpower to tap the market, STPI would be having a dedicated team of marketing and project management professionals operating from HQ and its main centres.
